

Classroom Tips

Do your part at school and at home with our useful tips and tricks.

Create a classroom library where pupils can bring in their old books so that others can borrow them instead of buying their own copy.

Use a reusable bottle and lunch box instead of waxed paper, sandwich bags or aluminium foil. This reduces waste and keeps your lunch fresh!

Involve pupils by inviting them to create posters and bright labels for each of the different bins in the classroom.

Start a recycling club! This is a great way to incentivise healthy competition between pupils and bring more awareness to recycling.

Make your paper last twice as long by using both sides! If you only need to use one side, save the paper in a “reuse” box.

Put lids on pens and markers to increase their lifetime. Discourage using stickers, decorative tape and consumables that can create waste.
